Codelattice®

HARNESS THE POWER OF AI

Verity Software

Middle East partner - Codelattice Technologies

In the ever-changing tech world, Verity is the compass for leading enterprises, equipping the teams to conquer the ever-shifting technology landscape. For 20 years, Verity has been the go-to for software development excellence. Our training programs equip organizations with the critical skills needed to thrive in today's tech landscape.

Our Expertise

Automotive Software:

Driving innovation in the automotive industry with specialized training in embedded systems, autonomous driving technologies, and connected car solutions.

Software Testing Methodologies:

Ensuring the delivery of high-quality software through rigorous testing practices, encompassing Agile testing, test automation, and performance testing.
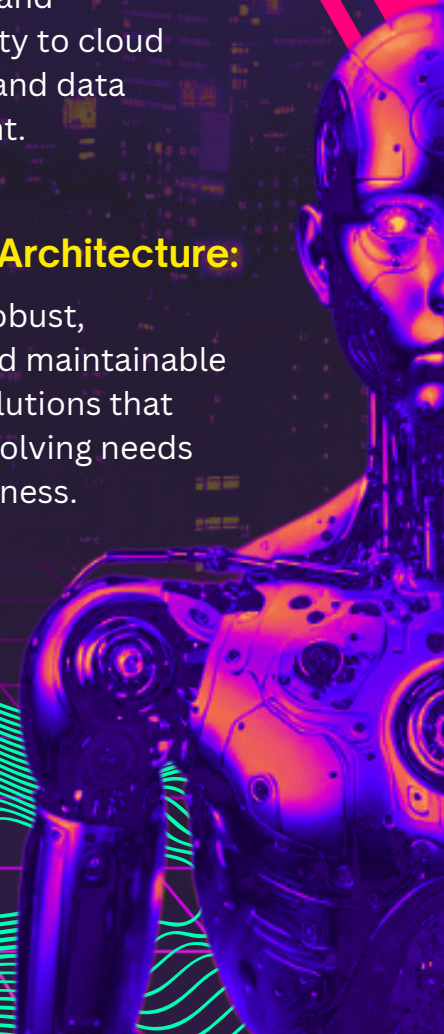

Agile & Scrum Frameworks:

Enabling teams to embrace Agile principles and deliver value faster through collaborative, iterative development approaches.

IT Fundamentals:

Building a strong foundation in core IT concepts, from networking and cybersecurity to cloud computing and data management.

Software Architecture:

Designing robust, scalable, and maintainable software solutions that meet the evolving needs of your business.

Ready to reach your full potential? Verity's flexible learning solutions are designed to help you succeed. Explore our offerings:

- Instructor-led courses for personalized guidance
- Online programs for convenience and self-paced learning
- Customized on-site training tailored to your unique needs

Our Courses

Automotive Embedded Systems Training

- Automotive Networking and Communication
- Diagnostics and Control Systems
- Electric Vehicles (EV) and Powertrain Technologies
- Automotive Embedded Systems Development
- Functional Safety and Cybersecurity
- Advanced Software Development Practices for Automotive
- Automotive SPICE (ASPICE)
- Advanced Driver Assistance Systems (ADAS)

Software Testing

- ISTQB Foundation Level
- ISTQB Advance Test Manager
- SeU Certified Selenium Engineer
- APIU Certified API, REST & Microservice Tester
- CU Certified Cloud Testing Practitioner
- PTU Certified Performance Tester with JMeter
- ISTQB Advance Test Analyst
- ISTQB Test Automation Engineer
- ISTQB Certified Tester AI Testing
- ISTQB Agile Foundation Extension
- ISTQB Advanced Technical Test Analyst
- ISTQB Advanced Agile Technical Tester
- ISTQB Advanced Security Tester
- ISTQB Foundation – Certified Mobile App Tester
- ISTQB Foundation Model Based Tester Extension
- ISTQB Foundation – Acceptance Testing
- ISTQB Automotive Software Tester
- ISTQB Gambling Industry Tester
- ISTQB Game Testing
- ISTQB Mobile Application Testing
- ISTQB Performance Testing
- ISTQB Security Tester
- ISTQB Usability Testing
- Software Testing (Manual)
- Software Testing (Automation)
- FastTrack Software Testing With Gen AI
- Certified GenAI-Assisted Test Engineer (Gen AiA-TE)

General IT and Software Development

- Cloud and IoT
- Graphics and Simulation
- Engineering Tools and Methodologies
- Project Management Practices
- Web Development
- Cloud Computing
- IT Service Management
- DevOps
- Data Science / Machine Learning
- Programming
- Database
- Project Management
- Block Chain
- Security
- Mobile App Development
- Embedded
- MS Project
- Big Data
- BI & Visualization

VERITY SOFTWARE PRIVATE LIMITED
6th Floor, Bizzhub, MSR North Tower, Manyata tech park, Bengaluru, India.

Middle East & Northern Africa Partner
CODELATTICE DIGITAL SOLUTIONS, Dubai | 1747, Tamani Arts Building, Business Bay, Dubai.
